Hon. Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir/Madam:

In response to the Notice of Allowability dated May 22, 2006, Applicants submit the following remarks.

Remarks

Claims 18-33 are allowed.

Applicants respectfully disagree with a statement of reasons for allowance on page 2 of the Notice of Allowability. The statement states, "With respect to Claims 18-33, the prior art alone or in combination does not teach the limitation of... plurality of sidewalls that extend from a first surface... receive a run capacitor." Applicants respectfully submit that Claim 18 does not include, "plurality of sidewalls that extend from a first surface", as stated in the statement. Rather, Claim 18 includes, "a plurality of sidewalls that extend from said first surface and are integrally formed with said first surface, said sidewalls extend from said first surface and form a compartment that is sized to at least partially receive a run capacitor therein".

Favorable action is respectfully solicited.

Respectfully Submitted,
